

## THE INFLUENCE OF THE CULTURE ON THE PREDICTION OF THE FUTURE

By **John D. Gaskins**, *Professor of Psychology, University of North Carolina at Charlotte*

*Received January 19, 1966; accepted April 1, 1966.*

*Abstract.* This study examined the influence of culture on the prediction of the future. A total of 100 subjects were used.

The results indicated that the predictions of the future made by Negroes were more positive than those made by whites.

It was also found that the predictions of the future made by Negroes were more positive than those made by Negroes from another culture.

These findings support the hypothesis that the predictions of the future made by Negroes are more positive than those made by whites.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

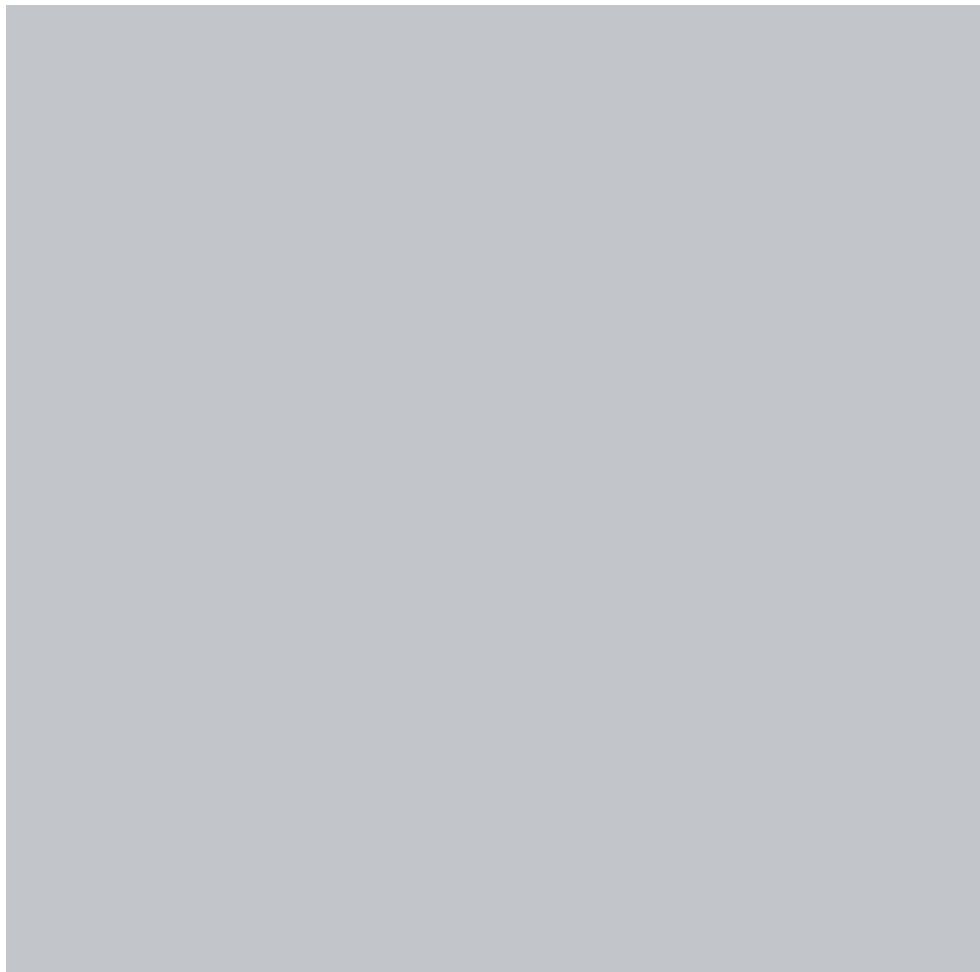

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

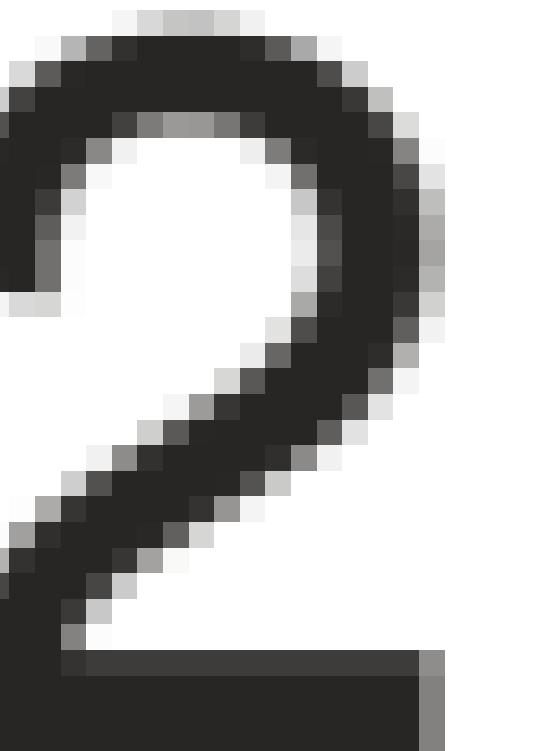

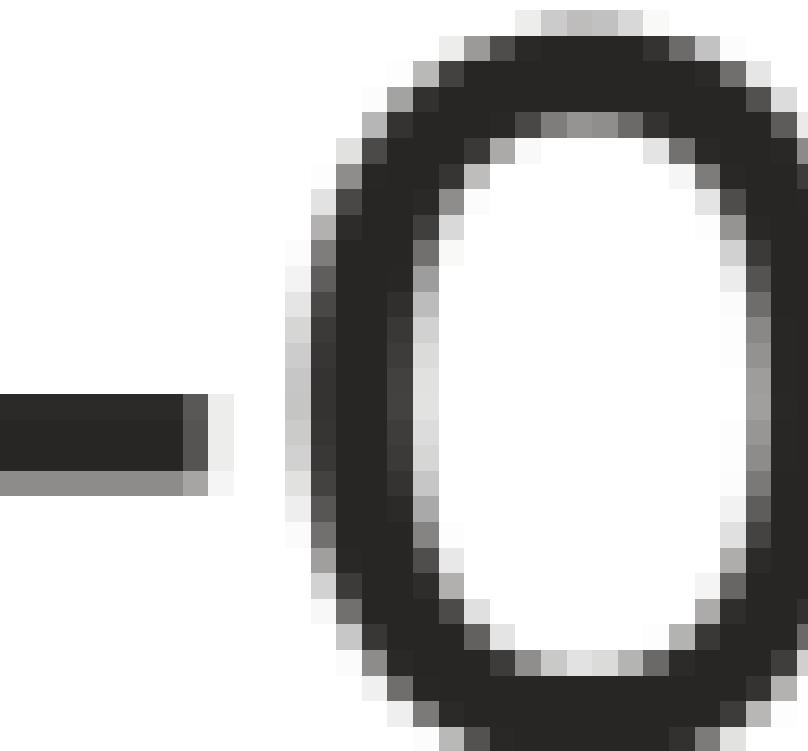

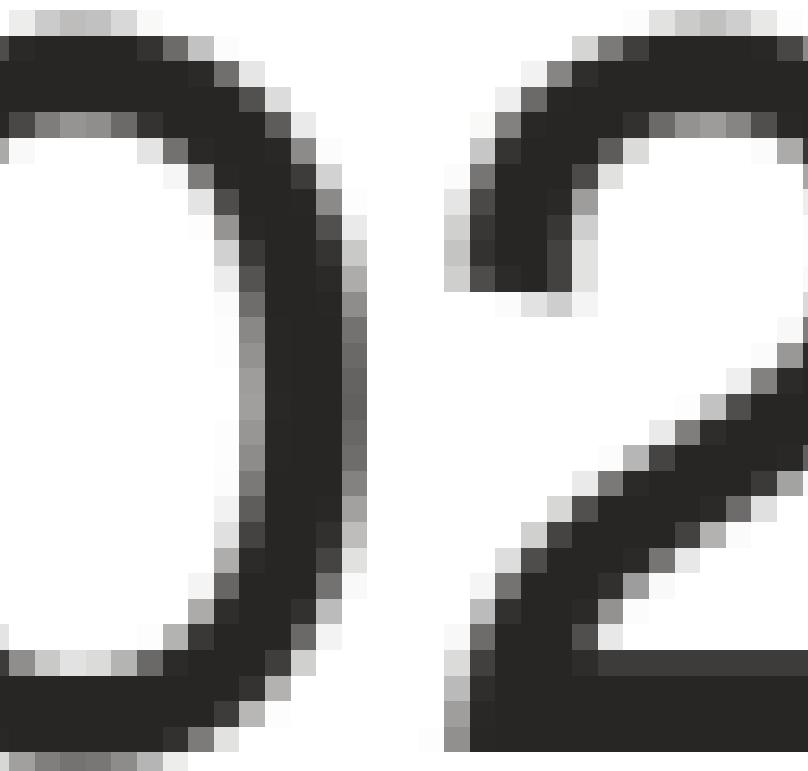

These findings also support the hypothesis that the predictions of the future made by Negroes are more positive than those made by Negroes from another culture.

CONVENTION OF THE UNITED STATES

# We the People

insure domestic Tranquility, provide for the common defense, and our Posterity, do ordain and establish this Constitution.

## Article I.

Section 1. All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and a House of Representatives.

Section 2. The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, and in such Manner as shall have Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

No Person shall be a Representative who shall not have attained to the Age of twenty five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

The Number of Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding all Indians not taxed, three fifths of all other Persons. The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within every subsequent Term of ten Years, so soon as may be directed by Law; except that the Number of Representatives shall not exceed one hundred, nor shall be less than fifty-five, until the Year One thousand eight hundred and twenty three, thereafter, at every Term of ten Years, so soon as may be directed by Law.
